13/G	"A sheen was observed on the water as a result of the rupture of hydraulic links on the vessel." Links should be replaced by "lines" or "Pipes" – These are small diameter lines for the remote actuated hydraulic valves.	Accepted – change made.
8/F	"The remaining approximately 185,000 barrels were obtained from Texas Petroleum Company (TPC) on March 3, 2015."	Accepted comment with modification - The date was deleted.
	Date should be March 09 th , 2015 when vessel completed loading of all cargo. Vessel berthed for second time at TPC on 7 th March after period waiting at anchorage. See deck log for exact timings.
