

- Parker Christensen

I arrived at Zephyr Cove Resort at approx. 0950

on August 16 2016 for my workday onboard the MV Galore Queen. After our initial work meeting I went aboard & began my work in the galley prepping the new hull plating for install. I was grinding the edges of the plate with a flap disk when Johnny "MAVERICK" came running down the stairs yelling there was a fire on the TOP DECK. I ran up to the TOP DECK only to be overcome by smoke & flame. We ran outside VIA the main deck & we began fighting the fire with our trash pump & the dock hose. The fire crew then picked us off the boat & we went to the beach. We then helped with deploying the boom. We deployed the boom & assisted with the HAZMAT cleanup.
