Urgent For Review Please Comment Please Reply Please Recycle

Dear Mr. Satow:

Norwegian Cruise Line has decided not to install new boilers on the S/S Norway. Instead, we will retube / repair the original boilers.

Two boilers will be done during operation in 1998.

The last two boilers, to be done during drydock, on April 1999.

Please send me a quote for the total retubing as outlined above, including tube stays and external repairs to insulation.

If you should require additional information, please contact me directly.

Best regards,

Per O. Sopp

Sr. Port Engineer
