

This figure was created utilizing radar source data provided by the FAA. This figure provides a 3D overhead view of approximately the last 20 minutes of the accident flight track of N11JK. NEXRAD weather from 1656-1701 UTC has been overlaid. The black circle indicates the aircraft's approximate position at 1656 UTC. A large area of precipitation can be seen forming to the west of the flight track and moving easterly. The date of the accident was August 11, 2012.

The radar data source was the Florence (FLO) ASR-8 located in Florence, South Carolina at 34° 10' 55.66" N // -79° 43' 14.41" W
