ADDENDUM 1: Electronic Devices - Pilot

Specialist's Factual Report By Sean Payne

1. EVENT SUMMARY

Location: Lockhart, Texas
Date: July 30, 2016
Aircraft: Balony Kubicek BB85Z
Registration: N2469L
Operator: Heart of Texas Hot Air Balloon Rides
NTSB Number: DCA16MA204

On July 30, 2016, about 0742 central daylight time (CDT), a Balony Kubicek BB85Z hot air balloon, registration N2469L, crashed into a field after striking high voltage powerlines near Lockhart, Texas. The 15 passengers and pilot onboard were fatally injured and the balloon was substantially damaged due to impact forces and post-crash fire. The flight was operating under 14 *Code of Federal Regulations* Part 91 as a sightseeing passenger flight.

2. ADDENDUM

This addendum adds the internet browsing history¹ recovered from the pilot's iPad. The internet browsing history is presented for one week prior to the accident (July 23, 2016) up through the accident time (July 30, 2016). Only banking information and large URL query strings² have been omitted from the browsing history presented below. All times are noted as CDT.

The browsing history is separated into three categories:

- Bookmarked Pages – Pages that the user had bookmarked³
- Displayed pages – Pages that were displayed currently on the device's browser
- Browsing history – A historical record of webpages visited by the user

¹ Internet browsing history – a list of web pages a user has visited recently—and associated data such as page title and time of visit—which is recorded by web browser software for a certain period of time.

² Query String – A portion of a URL that does not fit conveniently into a hierarchical path structure. Typically fields added to a URL by a web browser or other client application.

³ Bookmarked webpage – A URL that is stored for easy retrieval.
