

Crash During Turn Maneuver, Cirrus SR20, N929CD
Manhattan, New York
October 11, 2006
DCA07MA003

Animation Description/Disclaimer

This animation graphically demonstrates the flight path of the turn maneuver of the Cirrus SR20, N929CD in Manhattan, New York, October 11, 2006. The flight path line displays information from the radar data on a photo illustration combined with the Coast Guard video of the East River. Neither weather nor visibility conditions at the time of the accident are depicted. Selected comments and the ATC Airspace boundary are illustrated as text. The animation does not contain audio.

A low quality version of the animation is available in Windows Media format. A high quality version is available on DVD.
