JUVENILE INVOLVED? YES NO

On 12-09-99 at approx. 1745 hours, I was notified by communications personnel to conduct an area search for an overdue aircraft, from the College of the Ozarks. I drove to the area of Henning State Park. As I left the park area, I saw flames coming from the wooded area to the east of the park, north of MO 76. At 1821 hours, I notified communications of the find. Dick Emmert, a Taney County Reserve Deputy, responded to my location. Emmert and I walked up the side of the ridge. We located the remains of an aircraft, about 100 yards north of MO 76. The debris was scattered across a large area. Several pieces of the debris were still on fire, making a further check for occupants impossible. I did not locate any evidence of survivors. There was heavy fog and rain which also affected the search. Fire and EMS personnel were arriving to continue the search. I went back down to MO 76 and conducted scene security and traffic control, until other units arrived.

Chief Mefford and Assistant Chief McCullough were notified and responded to the scene.
