Incident Narrative

Units responded to the area of S. Lake Gulch Road and Castlewood Canyon Road for a reported aircraft alert 3 (plane crash). En route the Dispatch advised there was a reporting person that would direct units to the crash site on arrival.

Franktown and CRFD units arrived at the same time with Franktown establishing command. Access to an open field was gained and Brush 153, M159 and a brush truck from Franktown traveled over the field to the crash site. On arrival there was one small aircraft with major damage. It appear to have had one occupant who was dead on scene. The crash site covered an area approximately 2 acres

A perimeter was established and scene was secured by DCSO officers.

CRFD units were released from the scene and returned to service. mpr
