

**ATTACHMENT 67 – ENBRIDGE PUBLIC AWARENESS BROCHURE MAILINGS**

**MP 608 – Marshall, Michigan Incident  
NTSB/PHMSA Information Request No. 96**

**96 Reference:** Email request by Matt Nicholson of October 28, 2010

**Preamble:**

**Request:** The 2010 PDF database file lists contacts for the affected public and public officials.

Prior to 2010:

a. When was the last contact with the affected public and public officials?

b. Please provide documentation showing these contacts.

**Response:**

3602 PAP 051210 Liquids.pdf  
3602 PAP Liquids AP\_041709.pdf  
3602 PAP Liquids EO\_042409.pdf  
3602 PAP Liquids EX\_042409.pdf  
Liquid-EOPO-Booklet.pdf  
Liquid-AP-Booklet.pdf

The 2010 brochures were mailed on: affected public (May 4, 2010), public officials (May 7, 2010), emergency officials (May 7, 2010) and excavators (May 10, 2010). We also sent tailored brochures to schools and farmers, both of which mailed on May 4, 2010. (See the attached documentation “3602 PAP 051210 Liquids” for the Chicago Region from the U.S. Post Office).

The 2009 brochures were mailed on: affected public (April 17, 2009), public officials (April 23, 2009), emergency officials (April 23, 2009), and excavators (April 23, 2009). (See the attached documentation “3602 PAP Liquids AP 041709,” “3602 PAP Liquids EO 042409” and “3602 PAP Liquids EX 042409” for the Chicago Region from the U.S. Post Office).

Although the regulation requires affected public to be contacted every two years through the baseline program, and public officials every three years through the baseline program, Enbridge mails to all four audiences (affected public, emergency officials, public officials, excavators) every year.
