Anderson	KNUTSTRUM	Talked with Tom prior to his trip on the C CKMRTR1 59, had concerns about Creston guys getting swapped out all of the time with Lincoln guys as they are coming into Lincoln around MP31.1. Also questioned me about why he was still an ERP, he thought he was done. No personal or safety issues at this time.
Anderson	KNUTSTRUM	Visted with Tom in my office as he was going on duty today. Talked about the 5/55 rule and and he also asked me about and upcoming FLS test. Had no other concerns, I watched him board his train, which was tied down, and also as he proceeded to the next governing signal.
Anderson	KNUTSTRUM	Tommy came in today to sign his 10 day wavier. We took time to also talk about a variety of things. He reported to me he was under the impression you could LOC,EMC, once each calender year. He is well aware of the process now. Also let me know he put in for the upcoming FLS test. Other than that, all is good at this time.
Anderson	KNUTSTRUM	Talked with Tom today prior to him tying up here at the depot. He had nothing to report at this time, all is good. We briefly talked about the derailment out west and the importance of good train handling which helps prevent these things.
Anderson	KNUTSTRUM	Observed Tom spotting the Debruce grain train this morning. Prior to tying up, Mr. Anderson came into my office and we dissused his crew did. We also talked about setting out locomotives at Red Oak and the rule associated with leaving locomotives unattended. Lastly, talked about understanding what is your trailing end and leading end, in reference to changing direction inside of outer opposing signals.
Anderson	HENRY	I read a tape from the Z DENCHI1-06 that Mr. Anderson was on and found no exceptions. I contacted him and talked about the run and if he has any issues. None at this time.
Anderson	HENRY	I spoke with TH Anderson today about his PPI points and his last test failure which is coming up on a year and he wanted to know about his fuel cards for fuel conservation. He had no other issues other than that.
Anderson	HENRY	I spoke with Tommy Anderson on 09/28/10 and we discussed any issues he might be having at this time. He has no issues or problems to report.
Anderson	MUSGROVE	Performed operations testing on TH Anderson and monitored him throughout the day as he performed service as an engineer on a work-train. TH Anderson and I discussed his ERP status and employee states that he has no issues at this time.
Anderson	MUSGROVE	Completed a train ride and operations test with TH Anderson. We discussed his ERP status and TH Anderson reports no issues at this time.
Anderson	MUSGROVE	Completed OPT testing on TH Anderson and discussed his ERP status. TH Anderson stated that he was doing fine and reports no issues at this time.
Anderson	MUSGROVE	Completed initial ERP interview with TH Anderson. We discussed his rules violation and measures that he can take to prevent such repeat offences. We discussed ways that BNSF can assist him in maintaining an injury free work history as well as assistance BNSF can prvide to better assist his operating career to avoid future rules violations.
Anderson	MUSGROVE	Tested TH Anderson in the Creston Yard on 8/16/2010 and discussed his ERP status with him. Employee reports no issues at this time.
Anderson	MUSGROVE	Completed testing and contact on TH Anderson for the month of July. No exceptions taken and employee reports no problems.
Anderson	MUSGROVE	I discussed train handling operations and best practices with TH Anderson while in my office. I entered TH Anderson in for a 015 operations test as he did not appear to be under the influence. TH Anderson seemed very receptive to our talk and reports no issues at this time.
Anderson	MUSGROVE	Completed operations testing on TH Anderson in regards to maximum allowed speed. Discussed ERP status with TH Anderson, employee states no issues at this time.
Anderson	MUSGROVE	Operations testing for May was completed on 5/27/2010 by TM Owens and I spoke with TH Anderson on multiple occasions this monh. TH Anderson stated that he is doing fine and repors no exceptions at this time.
Anderson	MUSGROVE	TH Anderson has been operations tested and contacted for the month of April 2010. Employee reports that everything is going well and that he has no exceptions at this time.

Anderson	MUSGROVE	Completed re-interview with TH Anderson. Reviewed one of TH Anderson's event recorders and logged an operations test for a temporary speed restriction. Contacted TH Anderson and employee states that he is doing well and needs no assistance at this time.
