# Responding to Gas & Electric Emergencies Safety Seminar

*Presented by Pacific Gas and Electric Company*

Police, firefighters, and EMTs are usually the first to respond on the scene of an emergency. Both gas and electrical hazards may be present. Do you know how to identify them, what safety measures to take and how to contact the utility?

**Who should attend:** Training Officers, 911 communication center personnel, dispatchers, and anyone responsible for educating their personnel about safely responding to utility emergencies.

**What you will learn:**

- Gas and electric infrastructure components and how they operate.
- Recognizing an emergency.
- Elevated fire apparatus.
- Parking your rig.
- Do's and don'ts at the scene.
- Alerting the utility company
- Isolating and denying entry.
- Step and touch potential.
- Making contact with energized sources, such as cable, phone and other utilities lines.
- Where is the migrating gas accumulating.
- Secondary ignition sources.

**When:** Friday, August 6, 2010  
0900 – 1300 Hours  
\*Lunch will be provided

**Where:** Cordelia Fire Protection District  
2155 Cordelia Road  
Fairfield, CA 94534

**Cost:** FREE

**Instructor(s):** PG&E personnel
