To whom it may concern,

I shared with friends a short video of a hot air balloon crossing toll road on past Saturday morning, not sure if it was same balloon that ended in tragedy not much later. One of them suggested that I share with public in case it is helpful to investigation.

I will attempt to attach video recorded at 7:09am as well as a photo... neither very close up.

As we passed the balloon, which was paused on land not very far from lane we were driving in, we saw what looked like a person(s) working with the fire/flames. There were several people on the balloon. Unfortunately this was not taped and as we were passing, we didn't grasp the fact that this could have been an emergency landing. It didn't dawn on my mind until the next day when I saw the news.

Again, I am not sure if there was more than one balloon out that morning.

If you have any questions please feel free to contact me at [REDACTED].
