

MEMORANDUM for RECORD

Millicent Hill
Air Safety Investigator
Eastern Region Aviation

Date: January 29, 2020
Person Contacted: Enmanuel Guerra – FAA Inspector

This investigator interviewed Mr. Guerra by telephone and email, and he stated he responded to the accident site and examined the airplane. He reported damage to both wings, the main landing gear, and firewall. He spoke with the pilot who stated he believed the airplane ran out of fuel. The pilot was test flying the airplane after he installed a new engine and miscalculated the fuel consumption.

Mr. Guerra stated there was no fuel found in the fuel tanks.
