

RECORD OF CONVERSATION

Timothy N. Sorensen
Aviation Accident Investigator
Central Region

Date: December 30, 2019
Person Contacted: Richard Jara, FAA Flight Standards
NTSB Accident Number: CEN19LA043 – Harrison, Ohio

Narrative:

Insp. Jara conducted a post-accident examination of the airplane. The airframe sustained damage to the outboard left wing, the rudder and the landing gear. The engine appeared to be intact and undamaged, and engine control continuity was confirmed. The engine examination did not reveal any anomalies consistent with an inability to produce rated power.
