Dear Mike,

Good day and thank you for the opportunity to review your collision reconstruction study on the collision incident involving the ALNIC MC and the USS JOHN S MCCAIN. We have reviewed the data, and aside from our appreciation and admiration on the effort that you and your colleagues at NTSB did in reconstruction of several scenarios and presented options, we have no further comments.

Thank you for the support and cooperation that you have given this Administration as well.

/r,

Al
