

## RECORD OF CONVERSATION

**Timothy N. Sorensen**  
**Aviation Accident Investigator**  
**Central Region**

---

**Date: February 24, 2020**  
**Person Contacted: Dave Pogorzelski, Flight Instructor**  
**NTSB Accident Number: CEN20LA095 – Chesterfield, Missouri**

---

### **Narrative:**

Mr. Pogorzelski provided the following information:

As the flight instructor, on short final I checked gear handle down with a green light that was illuminated. I visually looked out the copilot side window and saw the right landing gear was down in its normal location. The airplane landed about 500 feet short of the 1,000-foot markers on runway 26R. As the airplane was rolling out, the landing gear collapsed near the E3 taxiway.
