

MAINTENANCE AND OPERATIONS LETTER

June 13, 2014
ALL-MOL-14-0015

FLIGHT CREW OPERATIONAL INFORMATION

TO: All Gulfstream Operators

SUBJECT: General (ATA 00) – Airplane Flight Manual (AFM) Procedures

Gulfstream is issuing this Maintenance and Operations Letter (MOL) to remind flight crews of the importance of adhering to flight procedures published in applicable Airplane Flight Manuals (AFM) to confirm flight control integrity and freedom of motion. Flight crews are reminded to perform the following as set forth in the applicable AFM procedures for each model aircraft.

- Ensure the gust lock is OFF prior to starting engines (not applicable for G650)
- Check flight controls for freedom and correct movement prior to taxi/takeoff
- Confirm the elevators are free during the takeoff roll
