

Appendix D
Hazardous Materials Group Factual
Olin Information

Graniteville, SC
DCA-05-MR-008

000001

Jim, below is the Olin and Augusta plant information requested. Let me know if you have any questions. Thanks for the opportunity to provide input.

Rick Hall

COMPANY DESCRIPTION

Olin Corporation is a manufacturer concentrated in three business segments:
Metals, Chlor Alkali Products and Winchester. Metals products include copper and copper alloy sheet, strip, foil, rod, welded tube, fabricated parts; and stainless steel and aluminum strip. Chlor Alkali Products manufactures chlorine and caustic soda, sodium hydrosulfite, hydrochloric acid and bleach products. Winchester products include sporting ammunition, canister powder, reloading components, small caliber military ammunition and industrial cartridges. In 2003, Olin posted sales of approximately \$1.6 billion. The company has approximately 5,700 employees and manufacturing locations throughout the United States.

Augusta Plant Description

The Olin Augusta plant produces chlorine, caustic soda, sodium hypochlorite (bleach), hydrogen, sodium hydrosulfite, hydrochloric acid, and dilute sulfuric acid.

The plant has been in operation since 1965 and has about 80 employees.

400 Seventh St., S.W.
Washington, D.C. 20590

SEP 9 2003

DOT-E 11941
(SIXTH REVISION)

EXPIRATION DATE: June 30, 2005

(FOR RENEWAL, SEE 49 CFR § 107.109)

1. GRANTEE: Occidental Chemical Corporation
Dallas, TX

(See Appendix A of this document for a list of additional grantees)

2. PURPOSE AND LIMITATION:

a. This exemption authorizes the transportation in commerce of certain DOT Class 105 tank cars containing Chlorine, tested using an alternative testing protocol. All tank cars must be converted from the alternative testing protocol specified in this exemption to the qualification procedures of § 180.509 no later than December 31, 2008. This exemption provides no relief from the Hazardous Materials Regulations (HMR) other than as specifically stated herein.

b. The safety analyses performed in development of this exemption only considered the hazards and risks associated with transportation in commerce.

3. REGULATORY SYSTEM AFFECTED: 49 CFR Parts 106, 107 and 171-180.
4. REGULATIONS FROM WHICH EXEMPTED: 49 CFR §§ 179.7, 180.505, and 180.509(1) in that the compliance date was postponed until December 31, 2000, except as specified herein.
5. BASIS: This exemption is based on Occidental Chemical Corporation's application of August 4, 2003, submitted in accordance with § 107.109.

SEP - 9 2003

6. HAZARDOUS MATERIALS (49 CFR § 172.101):

Proper Shipping Name/ Hazardous Materials Description	Hazard Class/ Division	Identi- fication Number	Packing Group
Chlorine	2.3	UN1017	N/A

7. SAFETY CONTROL MEASURES:

a. PACKAGING - Prescribed packagings authorized are DOT Class 105 tank cars operated by an exemption holder (owned or leased). Cars not owned by exemption holders may be retested under the terms of this exemption only after receipt of permission from the car owner.

b. OPERATIONAL CONTROLS - After each time the manway cover has been removed, exposing the tank interior to atmospheric air, and prior to loading product into the tank car, dry air to a dew point of -40°F must be applied to the car.

c. TEST AND INSPECTION - Each tank car operating under the terms of this exemption must be tested and inspected using the following alternative protocol. All of the following tests must be performed at the time of the initial testing under the exemption.

d. Tank car facilities must have a quality assurance program conforming to §§ 179.7 and 180.505; however, AAR approval is not required. All non-destructive examinations of the tank must be done by personnel qualified and certified in accordance with a qualified written procedure. Non-destructive examination personnel must be certified in accordance with a nationally recognized standard, such as ASTM SNT-TC-1A or Appendix T of the Association of American Railroads' Specifications for Tank Cars.

TEST/INSPECTION	REQUIREMENTS (49 CFR)	ACCEPTABLE RESULTS (49 CFR)	TEST INTERVAL (YEARS)
Hydrostatic pressure test	179.100-18(a)	179.100-18(a)	10
Safety system inspections	180.509(h)	180.511(d)	10

Continuation of DOT-E 11941 (6th Rev.)

Page 3

Internal visual inspection	180.509(d)	180.511(a)	5
Thickness test	180.509(f)	180.511(c)	5

8. SPECIAL PROVISIONS:

a. Beginning on December 31, 2000, tank cars operating under the terms of this exemption must be qualified in accordance with § 180.509 at a rate such that 50 percent are qualified no later than December 31, 2004, and the remaining cars are qualified no later than December 31, 2008.

b. No later than October 1 of each year that this exemption remains in effect, each holder of this exemption must furnish a written report to the address below, indicating the total number of tank cars inspected under the terms of this exemption.

Federal Railroad Administration
Hazardous Materials Division
RRS-12, Mail Stop 25
1120 Vermont Avenue, N.W.
Washington, D.C. 20590
Attn: William Schoonover

c. MARKING: Each tank car must be marked "DOT-E 11941" in letters and numerals at least four inches high on a contrasting background above the DOT Specification marking. Each tank car must be marked with the inspection and test due date (calendar year only) in accordance with Appendix C of the AAR Tank Car Manual.

d. The shipping paper entry requirements of § 172.203(a) are waived.

9. MODES OF TRANSPORTATION AUTHORIZED: Rail freight.

10. MODAL REQUIREMENTS: None as a requirement of this exemption.

11. COMPLIANCE: Failure by a person to comply with any of the following may result in suspension or revocation of this exemption and penalties prescribed by the Federal hazardous materials transportation law, 49 U.S.C. 5101 et seq:

000006

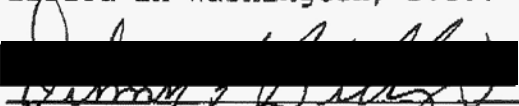

- o All terms and conditions prescribed in this exemption and the Hazardous Materials Regulations, 49 CFR Parts 171-180.
- o Registration required by § 107.601 et seq., when applicable.

Each "Hazmat employee", as defined in § 171.8, who performs a function subject to this exemption must receive training on the requirements and conditions of this exemption in addition to the training required by §§ 172.700 through 172.704.

No person may use or apply this exemption, including display of its number, when the exemption has expired or is otherwise no longer in effect.

12. REPORTING REQUIREMENTS: The carrier is required to report any incident involving loss of packaging contents or packaging failure to the Associate Administrator for Hazardous Materials Safety (AAHMS) as soon as practicable. (Sections 171.15 and 171.16 apply to any activity undertaken under the authority of this exemption.) In addition, the holder(s) of this exemption must inform the AAHMS, in writing, of any incident involving the package and shipments made under the terms of this exemption.
