Hello again Dennis,

The NDR searched the Problem Driver Pointer System and had the following results:

We did NOT find a [REDACTED] in PDPS with a matching birthday (or one close to) of [REDACTED]

We also did some queries for any [REDACTED] in TX (where is Driver's License is from) or MS (where the incident occurred) and did NOT find a [REDACTED].

We are going to make a pass through the archives as well.

[REDACTED]
