Marshall, MI
DCA10-MP-007**

**MP 608 – Marshall, Michigan Incident
NTSB/PHMSA Information Request No. 68**

68 Reference: Email request by Matt Nicholson on October 1, 2010

Preamble:

Request:

Provide a table of all inline inspections performed on the 6b line (The HCA Mgmt Guide has a table that does not look complete). Include Magnetic Flux, Ultrasonic and Caliper tool runs. Include the Tool type, vendor, Mile posts or stations inspected, date of the inspection, date of first report, any re-issues and date of final report for each run.

Required by: October 14th, 2010

Response: The HCA Management Plan only contains re-assessments of a line; not a complete historical listing.

The requested information is contained in the table below.

ENBRIDGE LINE 6B IN-LINE INSPECTION INFORMATION							
Year of Inspection	Tool Type	Tool Vendor	Area Inspected	Inspection Date	Date of First Report	No. of Reissues	Date of Final Report
2010	USCD - Crack	GE	Griffith (MP 465.58) to Stockbridge (MP 650.58)	July 2010	Report not received	-	-
2010	Geometry	GE	Stockbridge (MP 650.58) to Sarnia (MP 758.2)	May 2010	Report not received	-	-
