

**MP 608 – Marshall, Michigan Incident
NTSB/PHMSA Information Request No. 24**

24.8 Reference: Field Request

Preamble:

Request: **Provide a leak history for the pipeline over the past 5 years including the results of all leak surveys.**

Response: Apart from the subject Oil Spill near Marshall, Michigan, Enbridge did not experience any discharges on Line 6B between Griffith, IN and the US/Canada border that met PHMSA's 5 gallon threshold for reporting during the past 5 years. Enbridge is continuing to review records related to this request and will supplement its response as necessary.
