

### A few words about us

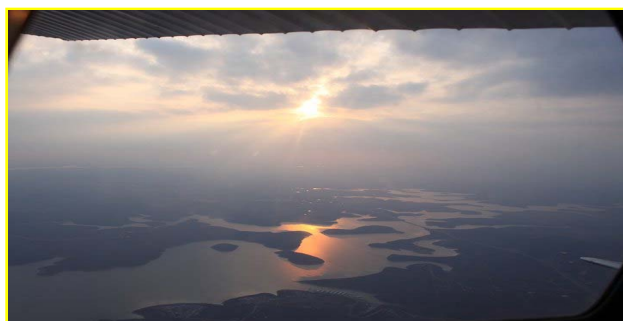

Skydive Airtight is a [USPA Group Member](#) skydiving facility and we are located 15 miles north of Tulsa, OK at the Skiatook Municipal Airport. We offer three types of training for first time jumpers.

Tandem Skydiving (you are attached to a USPA/FAA rated instructor by harness).  
 IAD Solo Skydiving (this is a solo skydive starting from 4,000 feet above ground level).  
 Accelerated Freefall (AFF) with two AFF Instructors. AFF jumps are done from 10,000'-12,000' each. Check out our [Prices](#) page for more info!

We use only United States Parachute Association rated instructors for all student training. We use modern state of the art parachute equipment. Skydive Airtight is privately owned and has been in operation at the Skiatook Municipal Airport since it's beginning in 1999.

The SDA hangar was built by skydivers for skydivers. [The Facility](#) This is the largest and nicest skydiving center in Oklahoma. [Meet the Staff!](#)

### What people are saying about us...

User Rating: ★★★★★  
 by **Ressa**

Thanks for a wonderful first tandem experience--celebrating my birthday! I researched 3 sites in 3 states...KS, OK, and TX; am so glad I chose Skydive Airtight! Professional, yet comfortable and fun atmosphere. Worth the 6 hour round trip drive! Stooey, you were great--couldn't imagine being "hooked" to anyone else. :) . Can't wait to see and share the video! Thumbs up!

### What to expect?

#### Skydive Airtight - 1651 South Lombard Lane, Skiatook, OK 74070

Skydiving is all about the experience of "freefalling".  
 Skydive Airtight is all about the safety, knowledge, and preventative measures all while GOING BIG!

SDA was built by skydivers for skydivers. We maintain the nicest and largest dropzone in Oklahoma. Not to mention the most scenic, hands down! We abide by all FAA and USPA (US Parachute Association) regulations from our well maintained Cessna 182 jump planes to state of the art gear and properly rated instructors and pilots. This is why we pride ourselves with a safety record that is second to none.

Located 20 miles North of Downtown Tulsa and 1 mile from local restaurants, lodging and Walmart, our facilities are situated on an 86 acre, small-town airport located just 4 miles East of beautiful Skiatook Lake (Wait til you see this view from nearly 2 miles up). With light local aircraft operations, our dropzone has been developed from the ground up with your needs in mind. Our air-conditioned classrooms, clean restrooms, showers, free wireless internet, TVs, and friendly staff keep visitors comfortable and entertained year round. We also have plenty of RV parking space for guests who prefer to make the dropzone their headquarters for longer stays.

For our experienced jumpers, you can also take advantage of our very large indoor carpeted packing areas. The benefit of a small-town airport is the immense open landing area surrounded by easy outs and divided landing locations for the more experienced jumpers.

Want to bring friends, family and even your long lost third cousin's dog to enjoy your high flying spectacle? No problem! We welcome anyone who would like to come out with you to share your experience and cheer you on. We ask you keep pets on short leash and your children in tow. This is a playground for adults!
