**ALBERTA CARRIER PROFILE**

**(133 Pages)**

## CARRIER INFORMATION

**Mullen Trucking (2005) Ltd.**

**PO Box 87  
Aldersyde AB T0L 0A0**

**NSC Number:** AB087-7936

**Profile Period Start:** 2011 MAY 28  
**End:** 2013 MAY 27

### NOTE

The "Carrier Profile" includes a history of convictions, inspections, and collisions provided to Alberta Transportation by law enforcement and other government agencies. Other information such as inspection facility certifications, audits, and notices documenting violations may also be displayed. The Carrier Profile is used to identify carriers that pose an unacceptable risk to the public. Information contained in the Carrier Profile will be considered when establishing a carrier's safety fitness rating.

Carriers are encouraged to obtain and review their Carrier Profile regularly to help evaluate the effectiveness of their safety and maintenance programs.

The actual description and coding of events are worded using criteria set by the Canadian Council of Motor Transport Administrators (CCMTA) and therefore may not be the same wording that appears on law enforcement documentation.

The carrier's current compliance standing can be found in "Part 1 - Carrier Information". This will always reflect events that have occurred in the previous 12 months from the printed date regardless of the Profile Period Start and End Date.

All reasonable efforts have been taken to ensure the accuracy of the information in this report. If any information shown in this profile is in question, the carrier should consult their records and, if it is believed an inconsistency still exists, contact Carrier Services at (403) 340-5444.

An Education Manual has been developed to assist carriers with compliance to transportation safety legislation. The manual and other information regarding Alberta's safety fitness program can be viewed on the internet at [www.transportation.alberta.ca](http://www.transportation.alberta.ca)

## TABLE OF CONTENTS

**NSC Number:** AB087-7936

**Carrier Name:** Mullen Trucking (2005) Ltd.

Part 1 - Carrier information	
Part 2 - Conviction Information	Pages 1 TO 13
Part 3 - CVSA Inspection Information	Pages 1 TO 94
Part 4 - Collision Information	Pages 1 TO 4
Part 5 - Violation Information	Pages 1 TO 9
Part 6 - Monitoring Information	Pages 1 TO 5
Part 7 - Facility Licence Information	Pages 1 TO 2
Part 8 - Safety Fitness Information	Pages 1 TO 2

## PART 1 - CARRIER INFORMATION

*12-month Report as of:* 2013 MAY 27

**Mullen Trucking (2005) Ltd.**

**PO Box 87  
Aldersyde AB T0L 0A0**

**NSC Number:** AB087-7936

**MVID Number:** 0555-83520

### SAFETY FITNESS CERTIFICATE

**Safety Fitness Rating:** Satisfactory

**Operating Status:** Federal

### RISK FACTOR (R-Factor - Carrier must strive for the lowest score)

**R-Factor Score:** 0.252

**Fleet Range:** 100-199

**Fleet Type:** Truck

#### *Contribution to R-Factor*

**Convictions:** 85.4%

**CVSA Inspections:** 8.5%

**Reportable Collisions:** 6.1%

### NSC MONITORING PROGRAM ON: 2013 APR 30

**Carrier's Monitoring Stage (1 to 4, 4 being the highest risk):**

**Total number of carriers at the same stage or greater:**

**NSC carriers in Alberta with Safety Fitness Certificates:** 24,806

**NSC FLEET SIZE ON: 2013 APR 30 Average:** 153

**Current:** 143

using MVIDS: 0555-83520 0583-92861

## PART 2 - CONVICTION INFORMATION

**NSC Number:** AB087-7936  
**Carrier Name:** Mullen Trucking (2005) Ltd.

Profile Period Start Date: 2011 MAY 28  
Profile Period End Date: 2013 MAY 27  
Date Printed: 2013 MAY 27  
Pages 1 To 13

TOTALS:	DOCUMENTS:	34
	CONVICTIONS:	34
	ACTIVE POINTS:	40

\*\*\*\*\*

### CONVICTION NOTE

The information recorded in this Part reflects convictions. A "conviction" is an offence that has resulted in a conviction being registered in the courts. Events are shown in order of offence date, with the most recent date shown first.

Points ranging from 0 - 5 are assigned to a conviction depending on the severity of the offence, 5 being the most serious offence. As an example:

- Faulty lights, not resulting in out-of-service 1 point
- Speed, 21-30 km/hr over posted limit 2 points
- No permit or contravene conditions on permit 3 points
- Drive while disqualified 5 points

Conviction points, CVSA Failure Rate, Collision points over a 12 month period, and the carrier's average fleet size over a 24 month period are used to establish the carrier's Risk Factor score (R-Factor). Alberta Transportation will intervene with those carriers with an unacceptable R-Factor score.

Events will stay on the standard profile report for 12 months from the conviction date, not the event date.

## PART 2 - CONVICTION ANALYSIS

**NSC Number:** AB087-7936

**Carrier Name:** Mullen Trucking (2005) Ltd.

NUMBER OF CONVICTIONS	PERCENT OF TOTAL	GROUP DESCRIPTION
10	29.5%	Speeding
1	2.9%	Stop signs/Traffic lights
3	8.8%	Driver Liabilities (Licence, Insurance, Seat Belts, etc.)
2	5.9%	Driving (Passing, Disobey Signs, Signals, etc.)
		Hours of Service
		Trip Inspections
		Brakes
2	5.9%	CVIP
3	8.8%	Mechanical Defects
3	8.8%	Oversize/Overweight
1	2.9%	Security of Loads
1	2.9%	Dangerous Goods
		Criminal Code
7	20.7%	Permits
1	2.9%	Miscellaneous
		Administrative Actions
34	100 %	TOTAL CONVICTIONS

Pages 1 To 94

TOTALS: PASSED: 248  
REQUIRED ATTENTION: 58  
OUT OF SERVICE: 28

\*\*\*\*\*

### CVSA INSPECTION NOTE

The information recorded in this Part reflects all Levels of inspections conducted by law enforcement agencies under the Commercial Vehicle Safety Alliance (CVSA) program. All levels of CVSA inspections (1 through 5) will be used to determine the carrier's out-of-service rate.

- Level 1 - is a complete inspection of vehicle and driver
- Level 2 - a walk around inspection of vehicle and driver
- Level 3 - is a driver inspection only
- Level 4 - is a one time examination of a particular item
- Level 5 - is a complete inspection of the vehicle only

A CVSA inspection will result in one of the following:

- Pass - no CVSA defect(s) found, decal issued
- Requires attention - defects found, none were out of service, no decal issued
- Out-of-Service - one or more out-of-service defects found, no decal issued

On Part 3 - CVSA Inspection Detail, Out Of Service defects (shown as an "O" on a CVSA Inspection Form) and Requires Attention defects (shown as an "X" on a CVSA Inspection Form) will be displayed separately. The number of defects detected will be displayed under the vehicle number and across from the defect category / description.

Conviction points, CVSA Failure Rate, Collision points over a 12 month period, and the carrier's average fleet size over a 24 month period are used to establish the carrier's Risk Factor score (R-Factor). Alberta Transportation will intervene with those carriers with an unacceptable R-Factor score.

CVSA Failure Rate is calculated as ratio of combined Out-of-Service inspection number with quarter of Required Attention inspection number to total number of CVSA inspections.

## PART 4 - COLLISION INFORMATION

**NSC Number:** AB087-7936  
**Carrier Name:** Mullen Trucking (2005) Ltd.

Profile Period Start Date: 2011 MAY 28  
 Profile Period End Date: 2013 MAY 27  
 Date Printed: 2013 MAY 27  
 Pages 1 To 4

TOTALS:	NUMBER OF COLLISIONS	NON-PREVENTABLE	PREVENTABLE OR NOT EVALUATED	ACTIVE POINTS
Property Damage:	8	0	8	6
Injury:	0	0	0	0
Fatal:	0	0	0	0

+++++

### COLLISION NOTE

The information in this Part is based on collisions considered "reportable" by the jurisdiction in which they occurred. Collisions are displayed in the order in which they occurred with the most recent date shown first.

Points will be assigned to each collision depending on the collision severity. The highest appropriate point value will be assigned to each collision.

- Property Damage 2 points
- Personal Injury 4 points
- Fatality 6 points

Conviction points, CVSA Failure Rate, Collision points over a 12 month period, and the carrier's average fleet size over a 24 month period are used to establish the carrier's Risk Factor score (R-Factor). Alberta Transportation will intervene with those carriers with an unacceptable R-Factor score.

Where a carrier has requested a "collision evaluation" and the collision was determined to be "non-preventable", the points will be removed from the Carrier Profile and the event will not be considered in determining the carrier's R-Factor score. Call Carrier Services at (403) 340-5444 for information on how to submit a collision evaluation application.

### VIOLATION NOTE

The information recorded in this Part summarizes other violations documented by enforcement agencies.

Each "violation" is a contravention of an act or regulation where no prosecution has been entered.

No points will be assigned to violations listed under this part. Violations are not used in determining a carrier's Risk Factor.

Pages 1 To 5

\*\*\*\*\*

### MONITORING NOTE

Alberta Transportation considers conviction, CVSA inspection, collision and audit information when determining a carrier's safety fitness rating.

Through the Carrier Profile system, conviction, CVSA inspection and collision information is analyzed and combined to determine a carrier's Risk Factor score (R-Factor). Each area's contribution to the R-Factor can be viewed on the "Monitoring Summary" page.

Alberta's National Safety Code monitoring program is designed to identify and intervene with 5% of bus and truck carriers that have the worst R-Factor. In establishing which 5% of carriers make up the department's monitoring list, fleet type (bus or truck) and fleet size are considered. Using this method carriers are compared with others that have similar fleet types and fleet ranges.

Once on the department's monitoring list, the carrier's R-Factor score is further evaluated to determine what monitoring stage they are at. Monitoring stages 1 through 4 have been established, 4 being the stage that represents the greatest risk to the public. Alberta Transportation will intervene in a progressive manner with carriers on the monitoring list in an effort to create positive change within their operation.

The monthly compliance data shown in the Monitoring Part is only for the months between the Profile Period Start and End Dates. Carriers may find it valuable to review this page to establish if the contributions of the convictions, CVSA inspections and collisions to the R-Factor score are rising, declining or staying the same. This type of information may assist carriers in evaluating the effectiveness of their safety and maintenance programs.

## PART 6 - MONITORING SUMMARY

**NSC Number:** AB087-7936

**Carrier Name:** Mullen Trucking (2005) Ltd.

INDUSTRY MONITORING INFORMATION ON 2013 APR 30

For Fleet Range: 100-199 and for Fleet type: TRK

Industry Average R-Factor Score: 0.217

(Industry Average is calculated for carriers with one or more NSC events)

Monitoring Stage R-Factor threshold for Fleet Range: 100-199

Stage 1: 0.976 - 1.197

Stage 2: 1.198 - 1.399

Stage 3: 1.400 - 1.999

Stage 4: 2.000 and higher

## PART 8 - SAFETY FITNESS INFORMATION

**NSC Number:** AB087-7936  
**Carrier Name:** Mullen Trucking (2005) Ltd.

Profile Period Start Date: 2011 MAY 28  
Profile Period End Date: 2013 MAY 27  
Date Printed: 2013 MAY 27  
Pages 1 To 2

\*\*\*\*\*

### SAFETY FITNESS CERTIFICATE SUSPENSION NOTE

Certificate suspensions, if any, will be shown. Where the description is "Suspended", the suspension remains in effect. Where the description is "Suspension", the suspension has been lifted as of the Expiry Date.

### SAFETY RATING NOTE

The information in this part relates to one or more Safety Fitness Ratings that were issued during the period for which the Profile was requested.

All carriers operating National Safety Code (NSC) vehicles are issued a certificate that shows their Safety Fitness Rating. There are 5 ratings that could be assigned:

- Excellent,
- Satisfactory,
- Satisfactory Unaudited,
- Conditional, and
- Unsatisfactory.

Carriers with an Unsatisfactory rating are not permitted to operate NSC commercial vehicles in Alberta.

Ratings are assigned under the authority of the Registrar and are determined using on-road performance and audit results.

### OPERATING STATUS NOTE

The Operating Status (OS) assigned to a carrier specifies what jurisdictions they may operate in, and what type of vehicles and drivers that will be monitored under Alberta's National Safety Code Program. The two types of OS are:

- "Provincial" authorizes a carrier to operate only point-to-point in Alberta. A carrier with this OS may NOT leave the province.
- "Federal" authorizes a carrier to operate anywhere in Canada. (Point-to-point within Canada or to/from the US border).

Carriers must ensure that they operate under the proper OS. Carriers found operating in or outside of Alberta without the proper OS may be charged with an offence, be issued an administrative penalty, and have their vehicle detained. Refer to Transportation's Website for more information.
