Memorandum to Leased Operators

In an effort to align our record filing process to the requirements of various government and industry standards we find it necessary to request monthly maintenance records from our Leased Operators. We have endeavored to make this report as simple and straight forward as possible while at the same time capturing the information necessary for our records.

The Mid Service check is to be performed between oil changes roughly every 10,000 -12,000 Km. The more detailed A Service is done at the time of your scheduled oil change. This maintenance must be recorded whether the work is done by the Leased Operator or done in an outside shop. Copies of invoices for the A Service and any other significant repairs i.e.: brakes, suspension, electrical should be attached to and noted on your monthly Maintenance Report. Reports must be forwarded to the Truck Shop at the end of each month. Monthly Maintenance Reporting is mandatory and failure to comply with this requirement will result in disciplinary action. Thank you for your co operation with this new process.

Acknowledgement of Understanding

As a Leased Operator with Mullen Trucking Inc., Truckload Division, I hereby certify, warrant and acknowledge that I have read and understand the monthly Maintenance Reporting process that is a requirement of my employment with the Company.

DISTRACTED DRIVING POLICY

Effective January 1, 2010, the following will become the Distracted Driving policy for Mullen Trucking LP. personnel operating vehicles for the purpose of company business:

- > Do not operate hand-held cell phones;
- > Do not send or read emails;
- > Do not send or read text messages;
- > Do not operate hand-held audio, video or gaming devices;
- Do not program or adjust GPS devices (built in or portable);
- Do not operate any other portable hand-held devices.

The following actions and devices will be exempt from the policy:

- ➤ Hands-free cell phones built in or securely fixed which are used by pressing a single button one time to activate the device for incoming or outgoing calls (it is, however, strongly recommended to pull over when safe and legal to continue the call);
- > Pre-programmed and voice-activated GPS devices;
- > Two-way radios for industry;
- > Use of the above devices while legally parked;
- ➤ Calling 911 to report an emergency.

In addition, if you make or receive a telephone call and determine that the other party is driving, end the call as soon as possible by requesting the other party park their vehicle and call you back.

Note: The above policy does not supersede or replace any laws or regulations.

13:11 Scoth	_, have read and agreed to the above policy.
Signed.	
Date: Feb 4/10	

Speed Policy

All Mullen Trucking LP insured vehicles are required to adhere to the posted speed limit in any jurisdiction they travel, up to a maximum of 105 kms per hour or 65 miles per hour.

Proof of governed commercial trucks traveling into provinces or states that have mandatory requirements must be on file prior to travel to these locations.

Citations resulting in a violation of this policy will result in loss of Safe Driving Awards and Quarterly Safety rebate.

Two violations of this policy in a twelve month period may result in employment or contract cancellation.

The following will be the criteria used for any Safety program, contest or bonuses at Mullen Trucking LP effective December 1st, 2008.

"Safe Driving Definition"

Safe Driving is defined as having no preventable incidents, or collisions in excess of \$1,000 combined total in any calendar year. No preventable violations, infractions or moving violations that may be chargeable to the driver. Any loss or misuse of company equipment resulting in damage. No violation of the Company Drug & Alcohol Policy.

DISCIPLINARY PROCEDURES

PURPOSE: To inform our Owner Operators that there are procedures in place for the failure to comply with laws and policies.

Mullen Trucking LP takes an austere approach to Safety. Our Company complies with that of Federal and Provincial laws as well as governing our own policies. When actions by Owner Operators jeopardize these laws and policies, we must make accountable measures for discipline.

Mullen Trucking LP reserves the right to determine what actions are serious enough to warrant disciplinary practice to Owner Operators. The following includes examples that may require discipline; all subject to investigation.

- Failure to immediately report a collision, claim incident or injury that the Owner Operator is personally involved in to a supervisor as required per Company Policy.
- ▶ Failure to notify Mullen Trucking LP of a moving violation, collision or chargeable incident received by the Owner Operator in a vehicle other than one insured and registered to Mullen Trucking LP.
- The Owner Operator's provincial driver's abstract indicating an accumulation of six or more demerit points. (Abstracts issued from provinces outside Alberta will be evaluated using AB's point structure).
- Failure to submit required paperwork in a timely fashion: logs, monthly maintenance reports, proof of deliveries, annual/semi annual CVIP, trip envelopes, fuel tax info.
- Any out of service orders or offences that impact Mullen Trucking LP's Carrier Profile.
- Moving violations including photo radar or red-light tickets.
- Violation of Company policies as set out in the Health, Safety and Environmental manual.
- Deliberate failure to obey reasonable instructions from authorized Company personnel.
- A verified civilian complaint regarding unsafe or unprofessional driver behaviours.

Refer to Section 5 (E) and 8 of the Owner Operator's service agreement.

When Owner Operators actions are serious enough to consider disciplinary action, such discipline will begin at any step depending on the seriousness of the incident.

- 1. For minor incidents, the Owner Operator will be given verbal warnings and provided with details of the consequences related to the incident. If there are further similar incidents the second step will be used.
- Written documentation, providing details of the situation and the consequences related to the incident, will be given to the Owner Operator by the appropriate Company official. Upon receipt of the written documentation, the Owner Operator must provide a satisfactory action plan to the Company official outlining improvement measures.
- If the Owner Operator's performance does not improve and/or further incidents occur, then such action by the Owner Operator could be deemed breech of contract and termination of Owner Operator Service agreement may result.

Refer to Section 17 Disciplines and Appeal of the Health, Safety & Environmental Policies and Procedures Manual.

Dated on this 29 day of murch , 2008.
