

INSPECTION / MAINTENANCE RECORD

FAA CRS GR4R216M / Savannah, GA

Page 1 of 2

MODEL: G-IV
SERIAL NO.: 1399
REGISTRATION NO.: N121JM
WORK ORDER NO.: SC335771

ACTT: 4696.4
ACTL: 2573
DATE STARTED: 09/03/2013
DATE COMPLETED: 09/20/2013

Reference the Inspection / Maintenance Record Attachment for Gulfstream CMP Codes that were accomplished under the above work order.

Updated the Equipment List section of the Weight and Balance Manual.

Weight and Balance data has been revised and inserted into the Weight and Balance Manual.

The weight and balance change to the aircraft is negligible.

Reference FAA Form 337, dated 09/20/2013, for pertinent details and approved technical data of major alterations and/or major repairs accomplished under this work order.

Performed Pilot and Co-Pilot Pitot/Static and Digital Air Data Computer functional and leak tests in accordance with the G-IV Maintenance Manual Chapter 34-01-00, (CMP 341074 and 341094) and inspected the area around the left and right primary static ports as outlined in G-IV Maintenance Manual Chapter 53-20-00 (GAC CMP 533010) which meets the requirements of Federal Aviation Regulations 91.411, FAR 91 Appendix G and FAR 43 Appendix E for all Reduced Vertical Separation Minimums (RVSM) certified aircraft.

Date of Inspection and Calibration: 09/18/2013

Next Due: 09/2015

Static/Altimeter and Automatic Altitude Reporting System(s) tests were performed in accordance with FAR 43, Appendix E, Paragraph (a), (b), (c) as required by FAR 91.411 and FAR 91 Appendix G for all Reduced Vertical Separation Minimums (RVSM) certified aircraft.

Standby Altimeter:

Part No.: 64111-952-1
Certified to 50,000 feet

Serial No.: 4085
Date Tested: 09/15/2013

Next Due: 09/2015

No. 1 Digital Air Data Computer:

Part No.: 7000700-984
Certified to 50,000 feet

Serial No.: 99118571
Date Tested: 09/15/2013

Next Due: 09/2015

No. 2 Digital Air Data Computer:

Part No.: 7000700-984
Certified to 50,000 feet

Serial No.: 99118574
Date Tested: 09/15/2013

Next Due: 09/2015

ATC transponder tests were performed in accordance with FAR 43 Appendix E, Paragraph C and Appendix F, as required by FAR 91.413.

No. 1 Part No.: 622-9210-409
No. 2 Part No.: 622-9210-409

Serial No.: 1635
Serial No.: 5310

Date Tested: 09/17/2013
Date Tested: 09/17/2013

Next Due: 09/2015
Next Due: 09/2015

6.27. Performed VOR check in accordance with FAR 91.171.

Date Tested: 09/19/2013

INSPECTION / MAINTENANCE RECORD CONTINUATION

Work Order No.: SC335771

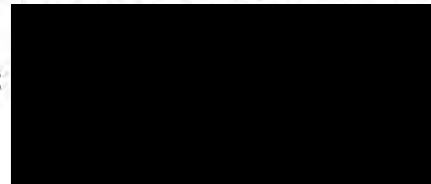

FAA CRS GR4R216M / Savannah, GA

Page 2 of 2

- 12.30. Complied with FAR 91.207(c)(2), the expiration date for replacing the Emergency Locator Transmitter Battery is 09/2016. Complied with functional check in accordance with CMP 256011 as required by FAR 91.207(d).
- 14.1. Complied with Aviation Communication and Surveillance Systems Service Bulletin No. 7517900-34-6017, Rev. 2 dated 06/15/2008 – TCAS 2000 Computer – Enhancement to BITE Software for Specific Resistor Failures and Upgrades the TCAS 2000 Computer to Software Modification B.
- 16.1. Complied with Gulfstream ASC 477: NZ 2010 FMS 6.1 Software with SBAS/LPV GPS Installation with minor deviations in accordance with Gulfstream Drawing No. CE41 6990103, Rev. NC: FMS NZ 6.1 ILS Look-Alike (ASC 477 Dev) under Gulfstream Custom Engineering Drawing List No. CE41 4960404, Rev. D. (No FAA Form 8110-3 / 8100-9 was issued for the minor deviations). Installed Flight Manual Supplement No. GIV-2012-02 (or later approved version) into the Airplane Flight Manual. Reference the Electrical Load Supplement No. SGER-314, Rev. NC, for applicable electrical load changes as a result of this installation.
- Reference Gulfstream Document No. SGER-299, Rev. NC, for Maintenance Requirements – Instructions for Continued Airworthiness.
 - Reference FAA Form 8100-9, dated 07/09/2012, for approval of Electrical Load Supplement in support of NZ-2000 FMS Version 6.1 Software with SBAS/LPV GPS Upgrade.
- 18.1. Complied with Gulfstream ASC481A: Automatic Dependence Surveillance – Broadcast Out (ADS-B Out) Installation with minor deviations in accordance with Gulfstream Drawing No. CE41 6990102, Rev NC: ADS-B Out (ASC 481A Dev) under Gulfstream Custom Engineering Drawing List No. CE41 4960404, Rev. D. (No FAA Form 8110-3 / 8100-9 was issued for the minor deviations.) Installed Flight Manual Supplement No. GIV-2011-02 into the Airplane Flight Manual.
- Reference Gulfstream Document No. SGER-452, Rev. A, for Maintenance Requirements – Instructions for Continued Airworthiness.
- 20.1. Installed TCAS (Traffic Collision Avoidance System) Version 7.1 in accordance with STC ST02406LA under Aviation Communication and Surveillance Systems (ASCC) Approved Model List (AML) No. ST02406LA, Rev. NC, Reference GIV ASC 480.
- Reference ACSS Document No. 8008572-001, Rev. A, for Maintenance Requirements – Instructions for Continued Airworthiness.

I certify that this aircraft has been inspected in accordance with a Due Inspection (Customer Supplied CMP) under the approved manufacturer's recommended inspection program under FAR 91.409(f)(3) and is approved for return to service with regards to the maintenance accomplished. Further details of this inspection and related maintenance are on file at this Repair Station under the above work order. A copy of the work order has been provided to the operator.
