*** END OF REPORT ***

ABX AD COMPLIANCE STATUS REPORT INTERPRETATION GUIDE.

The ABX AD Compliance Status Report is sorted by AD number. Under each AD is a list of ABX Engineering Orders (EOs). An EO contains all information (Work instructions, Planning instructions, Material information, Effectivity, FAA approval, etc.) to perform tasks on an airplane or component. The one exception to this rule is EOs that have the prefix “AD”. The AD EO is a reference EO and does not contain any work instructions.

The EO number and task number are listed on the AD Compliance Status Report. The EO number begins with a one, two or three letter prefix then the ATA chapter, ATA section, and a sequential number. Repetitive EOs begin with the letters “N”, “NEA”, “RAP” or “WI”. One-time EOs begin with the letters “EA”, “PEA”, “REA”, or “COI”. “CEA”s can either be repetitive or one-time. The task number is a computer generated five-digit number after the same letter prefix of the EO number.

The following is a typical entry for an AD. It lists two EOs. The first EO is the AD EO. It is a reference EO that Quality Assurance controls and shows the status of the AD.

```
AD 2005-06-10          Amdt 3914018

740AX      PYLON INBOARD FAIRING SEAL
  Closed   AD 054 50 0005 00 AD 48726 05/10/2006
           Ref: SB 767-54-0107
           Compliance Memo
           EA54500002.

740AX      REPLACE - SEALS, L&R INBD STRUT FAIRING, 767
  Closed   EA 054 50 0002 A EA 48902 03/10/2006 35639:15 32820 600062140
           Ref: SB 767-54-0107
```

The first line of each EO record indicates the tail number the EO record pertains to and the title of the EO.

```
AD 2005-06-10          Amdt 3914018

740AX      PYLON INBOARD FAIRING SEAL
  Closed   AD 054 50 0005 00 AD 48726 05/10/2006
           Ref: SB 767-54-0107
           Compliance Memo
           EA54500002.

740AX      REPLACE - SEALS, L&R INBD STRUT FAIRING, 767
  Closed   EA 054 50 0002 A EA 48902 03/10/2006 35639:15 32820 600062140
           Ref: SB 767-54-0107
```

The second line of each EO record starts with the status of the EO: Either “Open” or “Closed”. In this example, the AD EO is “Closed” indicating the AD is completed. No further action is required.

```
AD 2005-06-10          Amdt 3914018

740AX      PYLON INBOARD FAIRING SEAL
  Closed   AD 054 50 0005 00 AD 48726 05/10/2006
           Ref: SB 767-54-0107
           Compliance Memo
           EA54500002.

```

The third line of each EO record contains Service Bulletin (SB) references. (More lines are added if multiple SBs exist.) If there are no SB references, there is not a “Ref:” line.

```

740AX      PYLON INBOARD FAIRING SEAL
Closed     AD 054 50 0005 00 AD 48726 05/10/2006
           Ref: SB 767-54-0107
           Compliance Memo
           EA54500002.

740AX      REPLACE - SEALS, L&R INBD STRUT FAIRING, 767
Closed     EA 054 50 0002 A EA 48902 03/10/2006 35639:15 32820 600062140
           Ref: SB 767-54-0107

```

After the SB references, is an area for a compliance memo. Most AD EOs have a compliance memo. In this example, the AD EO is closed indicating the AD is completed and the compliance memo indicates the method of compliance by EO number EA54500002. Below the AD EO, is the record for EA54500002 that shows the time and date the EO was completed. Note: The AD Report is produced from a database that is used for many applications. There may be other EOs listed for an AD that do not apply for various reasons, but each AD will have only one AD EO and the compliance memo will list the compliance document. When the AD EO is “closed”, other EOs not listed in the compliance memo are ignored even if they show open.

```

740AX      PYLON INBOARD FAIRING SEAL
Closed     AD 054 50 0005 00 AD 48726 05/10/2006
           Ref: SB 767-54-0107
           Compliance Memo
           EA54500002.

740AX      REPLACE - SEALS, L&R INBD STRUT FAIRING, 767
Closed     EA 054 50 0002 A EA 48902 03/10/2006 35639:15 32820 600062140
           Ref: SB 767-54-0107

```

Some ADs are not applicable. The AD report will only list an AD EO for this AD and the AD EO’s Compliance Memo will explain why the AD is not applicable.
