

**PACIFIC GAS AND ELECTRIC COMPANY
San Bruno Gas Transmission Line Incident
Data Response**

PG&E Data Request No.:	NTSB_065-001		
PG&E File Name:	San Bruno GT Line Incident_DR_NTSB_065-001		
Request Date:	April 18, 2011	Requesting Party:	NTSB
Date Sent:	April 28, 2011	Requestor:	Operations (Chhatre/Kramer)

QUESTION 1

One of the pieces of pipe examined on April 7 and 8 (from 800 block of Glenview Dr) had the following stamped on the inside diameter surface (see attached photo):

P24795
22

Can PG&E identify the meaning of those markings and the source of this piece of pipe? If so, please provide that information.

ANSWER 1

PG&E has examined the historical records of the pipe and there were a variety of markings on the original 30" pipe installations in 1948 and 1949. However, we have no specific information regarding the stamp marks on the attached photograph and we have not been able to clearly identify and trace the stamped marks on any of the pipes.
