

Chart 4.20

Seat Deformation: Right vs. Left

- Right Deformation (191)
- Left Deformation (151)
- Recovered seats (422)

Note:
Description of seat deformation is based on a "forward-facing" orientation.
Seating positions depict assigned seats. Passengers may have changed seats during a crew brief and seat pitch is dependent on the flight attendant, not seats pertaining from other flight attendants.
See notes on seat location.
