

## Chart 4.21 Right vs. Left Injury Predominance and Seat Deformation

- Right Injury (43)
- Left Injury (32)
- Right Deformation (191)
- Left Deformation (151)
- Assigned Seats (216)

Note:  
Description of seat deformation is based on a "Forward Injury"  
investigation.  
Note:  
Assigned positions listed assigned seats. Passengers may have  
changed seats during a row that gave final seat to destination.  
The 141 Right Deformations were seats following their debris throughout  
the cabin, see not attached.
