

MEMORANDUM FOR RECORD

Heidi Kemner
Air Safety Investigator
Eastern Region Aviation

September 26, 2019

Subject: ERA19LA160
Who: David Garey – FAA Inspector

In a telephone conversation, Inspector Garey stated following:

The airplane was secured, fuel was plumbed into to the engine, and the engine was started. It ran smoothly, without hesitation, the engine power was decreased to idle power, and then the engine was shutdown. There were no anomalies noted with the engine.
