Subject: Accident 9/16/17 N53CP

Dear Aaron,

On Saturday morning around 11:15 a.m. I pumped 15.8 gallons of 100 LL fuel into N53CP.

He received 9 gallons in the right tank and 6.8 gallons in the left tank. I did observe him sump

his fuel about 15 minutes after being fueled. After he was done checking the fuel he walked to

the patio and sat down and talked with 2 other pilots that were sitting there. He departed 4B8

(Plainville, CT) at approx. 12:30 with one passenger. Please let me know if you need anything else.

Sincerely

Brian P O'Leary
