

## MEMORANDUM FOR RECORD

**Heidi Kemner**  
**Air Safety Investigator**  
**Eastern Region Aviation**

---

**Subject:** ERA17FA190 - ILS Critical Area

Inspector Drapala tracked down the pilots of the two aircraft that were on the airport when the pilot of the helicopter was talking to the tower. One airplane was N787AD, and it was a Dassault Falcon that was taxiing to Runway 1 at the time of the accident and nowhere near the critical area. The other airplane was EJA903QS, that was a Gulfstream IV, that was on the opposite side of the runway from the ILS critical area holding short for takeoff.
