

Memorandum for Record

**Doug Brazy NTSB
Eastern Region, Office of Aviation Safety (ERA)
National Transportation Safety Board**

**Date: 12/11/18
Propeller Examination
NTSB Accident Number: ERA18FA244**

Narrative:

On December 11, 2018, the left engine propeller, a McCauley model 3AF32C504-C, Serial number 960681, and right engine propeller, a McCauley model 3AF32C87-N2R, serial number 714473 were examined at the manufacturer's facility in Wichita, Kansas.

Present were:

Christy Eckerman - Federal Aviation Administration, Wichita, KS ACO
Danny Ball - Textron Aviation
Andrew Hall - Textron Aviation

The examination revealed that the blades on both propellers were at the low pitch stop position at the time of impact. No anomalies were noted with any of the propeller components.
