

MEMORANDUM OF RECORD

Heidi Moats
Investigative Assistant
Eastern Region Aviation

November 1, 2011

Subject: ERA12FA051 – N3086X – Moncks Corner, SC
Name: Mr. Christopher Lucarelli - Witness

In a telephone interview, Mr. Lucarelli stated the following:

- I can't remember exact date I saw Mr. Tollet.
- I think it was about three weeks ago.
- My hangar is to the far right of Mr. Tollet's Hangar and that is how I could see him.
- I haven't seen him in a couple of years.
- It was right about dark when I saw him drive in and get out of his car.
- I was cleaning out my airplane because I had just come back from a trip.
- He got out of the car and went to the airplane and I saw him untie it.
- I continued to work on my airplane and next I saw the airplane out of its hangar.
- It was pointed in the direction to taxi out.
- I didn't see him do anything preflight or anything because I was still working in my hangar.
- When I got in my car, he was getting in the airplane.
- It wasn't completely dark yet. The sun was down and it was right at dark, but there was a little light.
- I thought it was a little odd he was out there at night since I hadn't seen him for a while, but then again, I work during the day.
- After I got in my car, I didn't really notice anything else.
