William Didier was not selected for a random test. We had two pilots tested in July 2011.

Sir,

Thanks for the results. Could you find out how many of your employees in safety sensitive areas were tested randomly tested during the time period Mr. Fox was employed with Trans North. Thanks in advance.

Ed,

Here is a copy of the pilots preemployment drug results. We are on a consortium administrated by NATA compliance and Bill was on the list for random inspections. He was not selected for a random test while he was employed here but we have other employees that were tested.

Let me know if there is anything else you need.

Ken

Mr.

I am trying to complete my report. I would like to get a copy of the pilot's initial drug screening results, any random screening results, and his background check. Any questions [REDACTED]
