I am Robert Perez (CFI) on Cessna 150 (N704VM) at North Perry Airport. On Thursday the 23 of March I was instructing Miss Marina Gavrilova PPL on her plane. We ask by the ground controller, if would accept M (mike) takeoff on 1R and my Student followed the order as given by the controller. We were holding short M-1R #2. We were there for about 5 – 10 min. I remember looking at my watch it was about 7 min to 11am. A few minutes after that we were hit from behind by a Cessna 172.

Thank you and further questions please feel call me or email.
