

PACIFIC GAS AND ELECTRIC COMPANY
San Bruno Gas Transmission Line Incident
Data Response

PG&E Data Request No.:	NTSB_058-007		
PG&E File Name:	San Bruno GT Line Incident_DR_NTSB_058-007		
Request Date:	March 31, 2011	Requesting Party:	NTSB
Date Sent:	April 12, 2011	Requestor:	Operations (Chhatre/Nicholson)

QUESTION 7

SCADA

Please submit an addendum to NTSB 011-007 that explains which line each of the chart recorders is installed on. Are the pressures being read from L101, L109 or L132?

ANSWER 7

Rather than providing an addendum to NTSB_011-007, PG&E views this question as a new data request and provides the following information responsive to this request:

- Chart recorder labeled (A) Summit/Skyline inlet pressure read reflects Line 132.
- Chart recorder labeled (B) Pacific/Poinsettia upstream inlet pressure read reflects Line 101.
- Chart recorder labeled (C) Charter/Bayshore inlet pressure read reflects Line 101.
- Chart recorder labeled (D) Alpine/Junipero Serra inlet pressure read reflects Line 109.
- Chart recorder labeled (E) Alpine/Piers inlet pressure read reflects Line 132.
