INCIDENT NO: 18 110011 0303	REPORT DATE/TIME 6/29/2018 20:10	PHOTO POUCH NO.

Friday, June 29, 2018 20:10

1883 Tpr. Marshall, Robert A

On 06/29/2018 at approximately 2010 hrs. the Wooster Dispatch Center received a report regarding a hot air balloon that had crashed near State Route 511 and Eastlake Rd. The initial report advised an occupant within the balloon had fallen out and that Life Flight had been requested due to the conditions. Prior to my arrival dispatch had advised Life Flight had been cancelled by the units currently on scene

2013 hrs.

I arrived on scene of the incident along with Sgt. Kumor Ashland Police Department along with Ashland Fire Department were on scene. The injured occupant was being transported from the scene to University Hospital (Ashland, Oh). The units on scene identified the injured occupant was the pilot John Moran. I made contact with three additional passengers being transported by the hot air balloon they were identified as Michael Miller, Michael Majors, and Sean Mills II. These occupants advised none of them sustained any injuries as a result of the incident.

The occupants stated that Mr. Moran was the pilot directing and coordinating the flight. Mr. Miller stated that he was a student pilot being taught by Mr. Moran. Mr. Majors and Mr. Mills both advised they were first time passengers in a hot air balloon. Mr. Miller stated that as their flight crossed over the US 250 bypass they prepared to land in the open field south of Eastlake Rd. Mr. Miller stated that as the hot air balloon touched the ground they lifted back up to "walk it" (balloon) back to the road. Mr. Miller advised the crew was radioed by Mr. Moran about being on the ground currently. Mr. Miller then states that the balloon began to rock/sway from the wind. He stated that this action causes Mr. Moran to decide to "lay the balloon down". Mr. Miller advised he exits the balloons basket to grab the crown line to began deflating the balloon. He then stated that as the basked flipped over Mr. Moran struck his head and the other passengers yelled for him to come over to assist. Mr. Miller stated that he checked for a pulse on Mr. Moran and immediately began performing CPR on Mr. Moran.

The other occupants statements were similar to Mr. Miller the student pilot and have been included into this report.

2040 hrs.

Sgt. Kumor notified Lt. Durant for the incident. The OSHP District 3 Duty Officer was also notified during this time. Sgt. Kumor made contact with the Federal Aviation Administration (FAA). The FAA advised Vincent Yerace would be contacting him regarding the incident.

2100 hrs.

FAA Inspector Yerace advised was provided with the location of the balloon incident. He advised he was enroute to the scene to conduct an FAA inspection. All occupants were advised to remain on scene until they receive further instruction from the FAA. Photographs of the scene were taking during this time period. The balloon itself had be folded and tied up by the Balloonfest crew that was on the scene. This was conducted prior to the arrival of emergency services.

2109 hrs.

University Hospital advised Mr. Moran was deceased and that next of kin was being notified by their staff.

REPORTING OFFICER: Tpr. Marshall, Robert A	UNIT NUMBER:	DATE: 6/29/2018
APPROVING OFFICER:	UNIT NUMBER:	DATE:

18 110011 0303	6/29/2018 20:10		
INCIDENT NO:	REPORT DATE/TIME	PHOTO POUCH NO.	

2208 hrs.

FAA Inspector Yerace arrived on scene. Sgt. Kumor and I informed him that all of the passengers and witnesses on scene had provided oral and written statement regarding the incident. We also informed him that the balloon was moved prior to our arrival on scene but the basket remained in the location it was when the incident originally occurred.

2328 hrs.

Mr. Yerace completed his inspection of the scene. The Balloonfest staff secured Mr. Moran's balloon and removed it from the location. Ashland Police on scene were informed by a witness named Paul Kauffman that he had photographed the entire incident. Mr. Kauffman provided his pictures of the incident to OSHP. They have been included into this case investigation. This information was also forwarded to Mr. Yerarce from the FAA. A copy of the FAA's investigative report will be added to this investigation when received.

Vehicle Information

Type-Kubicck Balloon/Basket

Model-BB30Z

Category- Standard

Aircraft Serial # 1117

Registration Marks- N717FN

Designation # CLEFSDOGL25

FAA Rep- Steven M. Steele

The vehicle information has been documented in the investigator notes due to the program not featuring captions for hot air balloons
