Operations Specifications

**A009. Airport Aeronautical Data**

HQ Control 04/29/98  
HQ Revision 01b

a. The system described or referenced in this paragraph is used by the certificate holder to obtain, maintain, and distribute current aeronautical data for the airports it uses.

(1) Jeppesen enroute and instrument approach procedures are the primary source of aeronautical data which is maintained and distributed to the flight crews by the company. United States Government and Transport Canada terminal procedures and enroute charts are also authorized.

(2) Airport analysis is provided by contract with Aircraft Performance Group at 801 South Perry St. Suite 120, Castle Rock, Colorado 80104.

(3) Acceptable pictorial means of Special Airports pilot qualification is provided by subscription to the Jeppesens/Anderson Special Airports Manual.

1. Issued by the Federal Aviation Administration.
2. These Operations Specifications are approved by direction of the Administrator.

  
Cues, William

Principal Operations Inspector

NM13

3. Date Approval is effective: 10/7/02

Amendment Number: 8

4. I hereby accept and receive the Operations Specifications in this paragraph.
