NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

On Thursday 21st of march, I did a Solo Flight Check with Abdulla Ali Alqurshi, who had in that moment 25.9 hours of training. The check was successful, he showed good procedures and knowledge, and he was ready his first Solo Flight. So he went to fly under his instructor and my supervision. Everything was fine. The student performed a great take-off, traffic pattern and Landing.

After the landing, the student leaves the runway 1R via N. He takes his time to do the pertinent checklist and then, we see how he starts taxiing back to Hollywood Aviation ramp via D. On his way, there are two traffics holding short runway 1R in Mintersection, one of them using part of D taxi way. It seems the student is approaching to that traffic at a good speed via D, when we see how his airplane's wing impacted in the other aircraft's rudder. Student turns to the right to avoid the other traffic, but not enough. After the impact, the student remains inside the airplane with the engine running for a couple of minutes, and then, he shut dow the engine. Some minutes later, security arrives to our school and I go there to stay with the student and see what happened until you came.
