**Description of Damage to Aircraft and Other Property** *(Use additional sheet if necessary)*

The aircraft propeller is bent, the fuselage is substantially damaged in the cockpit area, both wingtips struck the ground and are damaged and the vertical stabilizer and rudder are partially crushed.

The aircraft made several gouges in the turf runway. There was no fuel or oil leakage.

**NARRATIVE HISTORY OF FLIGHT** *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I completed my condition inspection earlier in the day and refueled the aircraft from our on-site fuel tank containing 91 octane, no-alcohol fuel. I then preflighted the aircraft, with no anomalies found, and entered the aircraft to prepare for departure. After my preflight checks, I departed Butler Airpark (4KS7) at approximately 1810 CDT to the south and then east for a bit to avoid ultralight traffic, before returning on course to Oxford, KS (55K). I entered the pattern at 55K and performed two normal landings. I then proceeded directly back to 4KS7 and entered the traffic pattern for a landing to the south. On final, I input crosswind corrections and set up for a 3-point landing. Upon landing the aircraft started to nose down and continued until the propeller struck the ground and the aircraft flipped over on its back coming to rest opposite the direction of travel. I unbuckled my seatbelt and punched my way through the broken plexiglass on the right side of the airplane and crawled out. The mishap time is estimated to have occurred at 1830 CDT.

I called 911 to alert them to ignore any calls about the crash and to notify them I was okay. They sent an ambulance, many Sheriff's Deputies, a Highway Patrolman and an ambulance. Deputy E. Robert Latimer (phone [REDACTED]) took my statement and measured the mishap site. The Sheriff's report number is [REDACTED], date 6-01-2019.

**RECOMMENDATION (How could this accident/incident have been prevented?)**

Operator/Owner Safety Recommendation

1. Don't land with the brakes on
2. Wear your shoulder harnesses and keep them tight
3. Throw your 121.5 ELT in the trash
4. Keep a first aid kit in the aircraft
5. Secure a crash axe in the aircraft--one side of the axe should have a sharp point to break through plexiglass
