---

**Subject:** ERA20CA226  
**Who:** Michael Carper - Pilot

In a telephone conversation, Mr. Carper stated the following:

- Bought the airplane 10 days ago, well 2 weeks now.
- It looks like the fuel gauges were a little off.
- I thought to myself, there was no way I ran out of gas. But when I went back and drained the tanks, that's exactly what happened. I got a total of 3 gallons of fuel out. A half-gallon was in the right tank.
- There was nothing mechanically wrong with the airplane.
