Hi Mr. Gunther, how do I correct the NTSB form?

The person at my attorneys office who filled it out seems to have marked it as a part 135 flight when it was a part 91 aerial photography flight. I did not catch this when I signed the form. I was heavily medicated at that time.

It was discussed in the NTSB hearings that the form was in error as this was a part 91 aerial photography flight. However it was never corrected with your office. My lawyer and I both drooped the ball on this. I trust you have received the other documents I sent you.

sincerely
Forest Kirst
