Performance Assessment Notes/Comments/Concerns

gold from stop to Report - no prompting necessary -
hard to complete stop in Contingency Cub 1 -

- Release check - placed MCO in P-1 - discussed

Why Not to do this

- maint check on gold @ base for a noise - complex maint check -

Entered paused - kept going - handled well

- door Alert @ 209 spot in green - great

- power off/on @ Eprot - good

- head train @ 45 - slowed down but didn't see it - discussed visuals

Excellent Job!
