

RECORD OF COMMUNICATION

Michael Huhn
Air Safety Investigator
Western Pacific Region

Date: July 26, 2018
Persons Contacted: Ms. Denise Zanutto (pilot's wife)
NTSB Accident Number: WPR18FA143

Narrative:

The following is a verbatim excerpt of an email exchange between the NTSB and Ms. Zanutto

NTSB Questions

When Jan had the glider/trailer at your house, do you know whether:

- a. He ever removed the wing(s) from the trailer?
- b. He ever installed the wing(s) onto the fuselage?

Response

Never installed here at home. I don't think we had enough room for that. And i was at work all day. He worked from home so even if he did pull the wings out i wouldn't know that. Sorry. Would the wing require an inspection? If so, then he WOULD have most definately done that and then put them back in. But i don't know how one person could do that in the space we have. We live in a normal size house in a neighborhood
Hope that helps
