### **Narrative:**

During a conversation with Mrs. Kettner, she reported that she was sitting inside a house boat located in small turnout in Little Portuguese Canyon and saw an airplane fly by their position in a northerly direction at a low altitude (she couldn't judge how high it was) and didn't see the airplane again. Mrs. Kettner further reported that she observed a boat traveling north at a high rate of speed a short time later, followed by another airplane taxiing north in the water about 30 minutes later. Mrs. Kettner reported that neither her or anyone in her group heard the sound of impact.
