Record of Telephone Conversation

Person Interviewed: Mr. Bill Arnett – [REDACTED]

Date: June 17, 2013

Subject: – CEN13FA295

During the telephone conversation, Mr. Arnett stated the following:

He often saw a helicopter flying over his house. On the day of the accident, he witnessed the accident helicopter flying overhead and then it appeared that it had landed in a field. He was not familiar with normal engine sounds, but thought the helicopter's engine didn't sound right. Moments later, the helicopter appeared to lift off from the ground and level off. He did not notice anything out of the ordinary with the helicopter at that time.

This is the end of the conversation.
