Flight Standards District Office

████████████████████  
Wichita, Ks 67209

Mr. Price,

The functional testing of two PC-350 Static Inverters for the Wichita Citation Service Center on Wednesday May 20, 2009, that you were present to witness, has been completed. Serial numbers 209 and 2548 were both tested in accordance with the test procedures printed in the Avionic Instruments PC-350 Manual, Rev 5, 5/13/08. Both inverters operated within the allowed parameters during the testing. They were left running for at least five hours with no problems found. They were returned to the customer as "Non-Certified" per the customer's request. Please reference our Work Order numbers R09-02573 and R09-02574, attached.

If you require any more information, please contact me.

Sincerely,

████████████████████  
Greg Hoopes, Chief Inspector
