Good Afternoon Mr. Bragassa,

I hope all has been well. The NTSB has completed the tab remnant examination (see attached photo), which was retained from the mentioned accident. Please inform where the tab remnant should be return to. As for the investigation, it's still on-going. The factual report should be completed in the next few months, then on to the NTSB board members for a probable cause determination. This process takes, on the norm, a couple of additional months. Please do not hesitate to contact me if you have any questions. Thank you very much for all the cooperation in this investigation.

Regards,

Jose L. Obregon
