Re: Reno FSDO Accident # 2010ACC0016

Don,

For your information, Mack Johnston had been instructing Ray Rotge occasionally for many years. As a matter of fact, Mack gave Ray his last Bi-Annual flight review.

The evening prior to the accident we were talking about airplanes and flying, and I recall Mack saying that he and Ray were going flying the next morning and that he was going to be giving Ray some flight instruction..

Please let me know if you need additional information.

Thanks for your help.

Sincerely,

Thomas S. Rosen
